主旨: Suggestion of converting Shum Shui Po, Bai Tian Estate to High Class
Luxury Cemetry for Ancestors

Dear Housing Board Staff or Clean and Hygiene Department Staff,

The Bai Tian Estate is vacant now and might undergo construction for future use. Why not renovate the walls like beautifully Luxury Condos and inside is used to house the ancestors. There will be enough space to house the ancestors and can house the households together. But i guess if the people is to burn offerings for ancestors have to go to rooftop to do it or the lobby. The rooftop can be a rooftop garden and ash burning of incense paper and etc and must have high railings to ensure safety of the people.

Regards,
Zachno
