Subject Some ideas on building more columbaria

Urgent Return receipt Sign Encrypt

Dear Sir/Madam,

The simplest approach is to build more columbaria in existing public and private cemeteries since public acceptance should not be a problem.-- If the Hong Kong government can build so many public high-rise housing units, there is no technical reason why it cannot do so for the columbaria.- A simple look at the Tseung Kwan O columbarium- would let one wonder why such a small proportion of the area was- assigned to the columbarium, and that why the columbarium cannot be built taller, as tall as the IFC?

Ho Lo So.
