

The suggestions are summarized as below:

- Speed up the construction of the niches,
- The charges of some private columbaria are too high,
- The family niches in the Chinese Permanent Cemeteries were not fully occupied,
- Proper control and inspection of the existing private columbaria by monitoring their charges and provide sufficient support to the affected descendant if the columbaria closed down.

For your information and any action deemed necessary. We will reply the sender suitably and say that the suggestion has been passed to FHB for information and to BMCPC on bullet 3 above.
