Assistant Secretary for Food & Health (Food)3
Food & Health Bureau

Dear Sir/Madam,

I would like to suggest my point of view as follows:

- 1) Chapter 3: I support the establishment, role and function of the Licensing Board for Private Columbaria.
- 2) Chapter 4:
 - a) The number of niches regards as a Private Columbarium is any number greater than 10.
 - b) The licensing period for the operator should not be lesser than 20 years in order to protect the consumers' benefits.
 - c) Right of Use Premises should be self ownership by the operator so that the change will be minimum.
 - d) At least 10 % of the Sales volume should be reserved as Management fund.
 - e) Prior arrangement in case of cessation should be mandatory as Mode of operation.
- 3) Chapter 5: a) No exemption should be given to all operators including those pre-existing columbaria due to Equality to everybody.
- 4) Chapter 7: Duration of transition period should be as soon as possible and lesser than 12 months.

Conclusion: To regulate the business environment and protect the consumers in HKSAR is a responsible Government.

Thank you for your attention.

Cheung Chau Resident
