## LIVE POULTRY

29/05/2017 16:54

1. No live poultry in the Central Business District.
2. No live poultry ---where other fruits, vegetables sold nearby.
3. No Live Poultry at any market.

If shoppers insist on getting live....go to a poultry farm.

This is not 1899--its 2017.

Being hygienic is not Hong Kong strong points.

Outsource to contractors and sloppy amateur job is the norm here.

We are weak at all levels of hygiene---compared to other Asian cities.

Look at the sorry excuse---for a farmers market --we have.

Look at our recycling facilities

Look at our local Waste Collection Points throughout the city.

Like a 3rd World level--instead of World Class.
